

JANUARY 2023 PRICE INCREASES.

We are advising you of price changes that are planned to come into effect on 1st January 2023.

As you will have seen and felt, costs for factors including fuel, energy and gas are increasing at rapid rates. This is coupled with an increased cost for raw materials used in the production of products, across the board, as well as increased transportation, packaging and operational costs. All of the above has unfortunately meant that our suppliers have been left with no choice but to increase their prices.
